Digital Resource Library

This page is for VoRTCS tutors to share resources they have created, with other VoRTCS tutors. These resources can help with planning and facilitating a tutoring session, and they can generate ideas for sessions. They're free for VoRTCS tutors to download and use. To open a resource, click on its name. Once it's open, you should be able to print it (this will depend on your browser - try right clicking the screen, the "Print" option will usually appear), or - if you wish - download it.

If you have a resource of your own you'd like to share on this page, we'd love to see it. Please email it to Sandy at Sandy.Hang@svdpqld.org.au. In your email, please use the subject line: **VoRTCS website digital resources**. Also in your email, please include a brief explanation of how the resource can be used in a tutoring session (like the resource descriptions in the table, below). Please note, any resources you share **must have been created by you**. Please don't share resources you have found.

| Telling a story | A tool for adult learners to practice their written English. The tool |
